Dear Kids Who Are Home ALL Day,

My name is Rena Schor. I am 8 yrs. old and I am in third grade. I am homeschooled always, not only during the corona virus! I love playing with paper dolls! My grandmother, who runs the WWW with a few other ladies, once tried to make a paper doll business. She gave me lots of samples. We got more by printing out extras from the computer. Soon we had about 60! I printed them out and colored them in. They're in a box in my room. Sometimes I take them out and play with them. You can make your own and make clothes and everything!
